Job Summary:

The candidate will be responsible for generating leads, communicating with clients, understanding business requirements, and supporting the company's growth in IT and eCommerce services.

Freshers with good communication skills, confidence, and willingness to learn business development are welcome to apply.

Key Responsibilities:

- * Generate leads through LinkedIn, email, freelancing platforms, referrals, and other online channels
- * Identify potential clients for eCommerce development, Shopify, Magento, web development, and digital services
- * Communicate with prospects and understand their business requirements
- * Schedule meetings and coordinate with the sales/technical team for client discussions
- * Prepare and share basic proposals, company profiles, and service details with clients
- * Follow up with leads and maintain regular communication
- * Build and maintain strong client relationships
- * Research target industries, companies, and decision-makers
- * Maintain lead data, follow-up status, and communication records
- * Support the team in achieving monthly sales and business development targets

Required Skills:

- * Good communication and interpersonal skills
- * Basic understanding of IT services, websites, eCommerce, Shopify, Magento, or web development
- * Ability to generate and manage leads
- * Good knowledge of LinkedIn, email outreach, and online research
- * Ability to understand client requirements and explain services clearly
- * Strong follow-up and negotiation skills
- * Basic knowledge of CRM tools, Google Sheets, and MS Office
- * Self-motivated, target-oriented, and eager to learn
- * Positive attitude and willingness to learn

Good to Have:

- * Experience working with an IT company, digital agency, or eCommerce service company
- * Experience with LinkedIn Sales Navigator, Upwork, Fiverr, Freelancer, or other bidding platforms
- * Basic knowledge of proposal writing
- * Understanding of international client communication
- * Knowledge of Shopify, Magento, WooCommerce, WordPress, or custom web development services will be a plus

Education:

Bachelor's degree in Business Administration, Marketing, IT, Commerce, or related field preferred.

Freshers can also apply if they have good communication skills, basic computer knowledge, interest in sales/marketing, and willingness to learn client communication.

Sector: IT Services / eCommerce Development / Web Development

Interview Process:

1. Initial Screening
2. Communication & Sales Skill Round
3. Final Interview with Management
